Patents

Patents 1 - 10 on **database lock object migration**. (0.02 seconds)

[Sort by relevance](#) | [Sort by date \(new first\)](#) | [Sort by date \(old first\)](#)

On-line reorganization in **object-oriented databases**

US Pat. 6343296 - Filed Sep 3, 1999 - Lucent Technologies Inc.

Traditionally, the application effecting the **migration** of an Using a new Incremental Reorganization Algorithm **object** will **lock** out all transactions from the ...

Internet **database system**

US Pat. 6523036 - Filed Aug 1, 2000 - Dantz Development Corporation

Records every **migration** in which C is the source or destination. ... 60 User requests to write some **object** to the **database** need a shared **lock** to the ...

Database system with methods for appending data records by partitioning an ...

US Pat. 5717919 - Filed Oct 2, 1995 - Sybase, Inc.

Here, the **object** which is being locked is not DBMS systems have long ... As the **migration** to client/server continues, each day row-level locking mechanism. ...

System, method and article of manufacture for configuration management in a ...

US Pat. 6256773 - Filed Aug 31, 1999 - Accenture LLP

Data **migration** control tools manage multiple versions of the **database** and its data ... the **Migration** of all the Components That Make Up a **Migration Object**? ...

Building techniques in a development architecture framework

US Pat. 6405364 - Filed Aug 31, 1999 - Accenture LLP

Data **migration** control tools manage multiple versions of the **database** and its data ... the **migration** of all the components that make up a **migration object**? ...

System, method and article of manufacture for security management in a ...

US Pat. 6324647 - Filed Aug 31, 1999

Data **migration** control tools manage multiple versions of the **database** and its data ... the **migration** of all the components that make up a **migration object**? ...

System, method and article of manufacture for managing an environment of a ...

US Pat. 6370573 - Filed Aug 31, 1999 - Accenture LLP

Data **migration** control tools manage multiple versions of the **database** and its data ... the **migration** of all the components that make up a **migration object**? ...

Managing information in an integrated development architecture framework

US Pat. 6662357 - Filed Aug 31, 1999 - Accenture LLP

Data **migration** control tools manage multiple versions of the **database** and its data ... the **Migration** of all the Components That Make up a **Migration Object**? ...

Method and apparatus for managing replicated and **migration** capable session ...

US Pat. 6877111 - Filed Mar 26, 2001 - Sun Microsystems, Inc.

However, use of the distributed **lock** manager for coordinating **database** operations ... The system includes an application part having an entity bean **object**, ...

Method and apparatus for **migration** of managed application state for a Java ...

US Pat. 6912569 - Filed Apr 30, 2001 - Sun Microsystems, Inc.

However, use of the distributed **lock** manager for coordinating **database** ... module includes a second state **object** that is generated by **migration** of managed ...

Patents

Patents 1 - 10 on **database lock object**. (0.05 seconds)[Sort by relevance](#) | [Sort by date \(new first\)](#) | [Sort by date \(old first\)](#)

Database lock control method

US Pat. 5890153 - Filed Nov 19, 1996 - Hitachi, Ltd.

35 In the **lock** representation, the **lock object** to be actually managed in **lock**
... 208 and added to each **object** entity 202a within the **database** file 203. ...

Database system with methods for parallel lock management

US Pat. 5832484 - Filed Jul 2, 1996 - Sybase, Inc.

In a multi-tasking **database** system having a server storing a **database** connected
... creating a **lock object** storing locking information about the particular ...

Method and apparatus for concurrency in an object oriented database using ...

US Pat. 5742813 - Filed Sep 12, 1995 - CADIS, Inc.

If it is granted, the **lock object** 260 for class 243 corresponds to a class 245
.... retriever 130 to add an instance to the **database** 123. the 55 241 and 243 ...

Method and apparatus providing optimistic locking of shared computer resources

US Pat. 6850938 - Filed Feb 8, 2001 - Cisco Technology, Inc.

The **lock** data structure 144 also includes an **object** identifier field 147 that
carries a value that identifies the **database object** that corresponds to the ...

Method and apparatus for transferring data from the cache of one node to the ...

US Pat. 6353836 - Filed Nov 24, 1998 - Oracle Corporation

The **lock** manager that resides on the node on which a **lock object** is stored is
... In order to downgrade its **lock**, **database** server A goes through what is ...

Object oriented database management system

US Pat. 5838965 - Filed Nov 10, 1994 - CADIS, Inc.

DataBase Manager ' 10 The **database** manager 139 is a subsystem of the knowledge
... For a more detailed discussion of **lock object** granularity, see Won Kim, ...

Method of maintaining consistency of cached data in a database system

US Pat. 5261069 - Filed Aug 13, 1990 - Hewlett-Packard Company

A computer-implemented method according to claim 9 wherein the step of acquiring
a cache **lock** comprises acquiring a share **lock** on an **object** in the **database** ...

Recovering data from a failed cache using recovery logs of caches that ...

US Pat. 6507853 - Filed Jun 27, 2001 - Oracle Corporation

50 BACKGROUND OF THE INVENTION To improve scalability, some **database** systems
permit more than ... Each **lock object** is stored in the memory of a single node. ...

System and method for database management supporting object-oriented programming

US Pat. 5437027 - Filed Aug 20, 1993 - Texas Instruments Incorporated

The concurrent **lock object** ID 78 if the user-defined name had not been member
... if the number of objects committed to the **database** is member is returned. ...

Recovering data from a failed cache using a surviving cache

US Pat. 6609136 - Filed Jun 27, 2001 - Oracle Corporation

50 BACKGROUND OF THE INVENTION To improve scalability, some **database** systems
permit more than ... Each **lock object** is stored in the memory of a single node. ...
